PROFILE

English and Literary Studies graduate with a strong foundation in communication, writing, research, and content development, currently building expertise in Frontend Engineering. Through my frontend training and hands-on projects, I have developed practical experience with HTML, CSS, JavaScript, React, TypeScript, and modern web development tools, while strengthening my problem-solving and analytical skills. I also have experience in media and radio, where I contribute to news research, writing, content preparation, and on-air communication. I am interested in the intersection of technology, communication, and digital experiences, and I continue to develop my skills through structured learning, collaborative projects, and practical work.

EDUCATION

Alex-Ekwueme Federal University Ndufu-Alike, Ikwo.

B.A English and Literary Studies

Graduated on 21st November, 2024

KEY SKILLS & COMPETENCIES
