PROFILE

Frontend Developer with practical experience building responsive and user-focused web applications using HTML, CSS, JavaScript, TypeScript, and React. Experienced in developing interactive user interfaces, integrating REST APIs, and collaborating on software development projects using Git and GitHub. Currently advancing my technical skills through Frontend Engineering training at AltSchool Africa and hands-on projects. Brings additional strengths in research, communication, problem-solving, and teamwork.

KEY SKILLS & COMPETENCIES

TECHNICAL SKILLS

Programming Languages

- HTML5
- CSS3
- JavaScript
- TypeScript

Frameworks & Libraries

- React
- Tailwind CSS

Development Tools

- Git & GitHub
- Vite
- Visual Studio Code
- Figma

Technical Competencies

- Responsive Web Development
- REST API Integration

- Component-Based Development
- Version Control
- User Interface Development

PROFESSIONAL SKILLS

- Problem-Solving & Critical Thinking
- Team Collaboration
- Research & Information Analysis
- Technical Documentation
- Communication & Presentation
- Adaptability & Continuous Learning

EXPERIENCE & PROJECTS

NYSC Corps Member | Ogene 98.3 FM, Enugwu-Ukwu
2026 – Present

- Contribute to news research, writing, and content preparation for radio programmes.
- Develop and present engaging on-air content while maintaining accuracy and clarity.
- Collaborate with the News and Programme departments on content planning and delivery.
- Participate in interviews, field reporting, and audience engagement activities.

PROJECTS

SKILLCRED – Skills and Project Verification Platform
Frontend Developer | Collaborative Capstone Project | 2026

- Contributed to the development of a platform designed to help individuals showcase their skills, projects, and credentials.
- Developed frontend features using React, TypeScript, and Tailwind CSS.
- Implemented user-facing application features and integrated frontend interfaces with backend APIs.
- Collaborated with backend and cloud engineers to develop and refine the application.
- Used Git and GitHub for version control and collaborative development.

HUDDLE – Collaborative Team Web Application
Frontend Engineer | Team Project | 2026

- Developed the landing page and authentication interfaces for a collaborative web application.

- Translated interface requirements into responsive and functional user interfaces.
- Collaborated with other developers using Git and GitHub in a shared development environment.
- Participated in sprint planning, code reviews, testing, and collaborative problem-solving.

INTERACTIVE IMAGE GALLERY - Personal Project

- Developed an interactive image gallery with features for viewing, managing, and interacting with images.
- Implemented image actions including favourites, editing options, sharing, and contextual menus.
- Focused on creating an intuitive and responsive user experience.

MUSIC PLAYER - Personal Project

- Built an interactive music player with frontend functionality for music playback and user interaction.
- Developed the interface with a focus on usability and responsive design.

NAIJA WIRE – Digital News Platform
Personal Project | In Progress

- Currently developing a digital news platform inspired by established Nigerian newspaper websites.
- Focused on building a structured news-reading experience and responsive user interface.

EDUCATION

Alex-Ekwueme Federal University
NdufuAlike, Ikwo.

B.A English and Literary Studies — Graduated on 21st November, 2024
